and the city in English literature since the 16th century, and how these images become central symbols for conceptualizing the social and economic changes associated with capitalist development in England. Williams debunks the notion of rural life as simple, natural, and unadulterated, leaving an image of the country as a Golden age.

5.0 out of 5 stars THE COUNTRY AND THE CITY by RAYMOND WILLIAMS. We are divided human beings, and this was largely brought about by the division of labour, and its frightful specialisation nowadays : division between town and country, between manual and intellectual work, between man's and woman's work.

...

In *The Country and the City* Williams explores the images of the rural and urban worlds in English literature since the 16th century and shows how certain ones have persisted while others have changed. His literary examples and observations tend to support his historical interpretation: that there has been no boundary line, no sharp dichotomy
